PLEASE SELECT YOUR COURSE (Course registration is limited and will be filled in order of receipt)

Downstream Due Diligence & Risk Management

This course will provide participants with an exposure to reviewing risk management and downstream due diligence protocols currently being established in the electronics recycling and IT asset disposition (ITAD) industry. The different protocols will be the basis for allowing the participants to create their own standards for downstream due diligence and risk management in a work-group format. Participants will also learn some basic auditing methods and techniques.

Course Organizers: Mike Wright, Guaranteed Recycling Xperts; Peter Bennison, Metech International

Session Chair: Peter Bennison, Metech International

Instructors: Bob Tonetti, U.S. EPA; Mike Wright, Guaranteed Recycling Xperts; Dave Church, BVQI; Andrew McManus, Metech International

Electronics Specialty Materials: Recycling & Disposal

This course addresses the challenges recyclers face in dealing with specialty items such as televisions, cell phones, florescent lamps, and batteries. Industry subject matter experts will offer solutions for collection, meeting environmental guidelines, transportation, security, and processing; as well as identifying potential reuse markets and disposal costs.

Course Organizer: Andy Ewing, Earth Protection Services

Session Chair: John Chilcott, Earth Protection Services

Instructors: Bob Erie, E-World Recyclers; Andy Ewing, Earth Protection Services; John Patterson, Metal Conversion Technologies; Craig Boswell, HOBI International
